West Indies.

KINGSTON, JAMAICA, Oct 27—An attempt has been made by some Haytien refugees, resident here, to assassinate the Haytien Consul to this port.

We have advices that Jeremie has been bombarded and destroyed by Salnave's men-of-war, Alex Petion and Salnave. The Consul resident there, the American, English and French, asked a delay to remove non-combatants before fire was opened, but the request was not granted, and the bombardment lasted three days. Numbers of women and children were killed. Salnave commanded in person.

All the houses and consular offices were destroyed or badly damaged.

Port au Prince is reported as threatened by Gen Nisage Sagot, and in consequence President Salnave has been compelled to withdraw from Jeremie.

The Picos are deserting Salnave's standard because they have found out that he is a mafioso, not a pure black.

General Domingue, who has been proclaimed President of the South, is a black. He accepts the situation and appeals for support to all the blacks. He has \$10,000,000 of paper money at command, and a great deal of produce.

President Salnave has been destroying a great deal of foreigners' property with his gunboats, and the British Commodore Philimore has received orders to watch Salnave's movements and actions. The latter has had a brief quarrel with his late minister, De Lorme.

The excitement and indignation in Hayti against Americans is increasing. This hostility is caused in part by the fact that the Haytien government was furnished by its war vessels by American shipowners, and that those vessels are manned by Americans who do not refuse to execute the cruel orders of Salnave.

Siam.

There had been a serious disturbance between Alabaster, acting Consul for Great Britain and the King of Siam, at Bangkok. It appears that Captain Eames, Chief of Siam police, started to hunt for some snatched opium, and in searching entered some houses, and they by some means got on fire. The owners, being British subjects, appealed to the Consul, who applied to the King and was refused. The Consul then hauled down the consulate flag and sent to Singapore for a gunboat. The affair was unsettled at last.

ALTHOUGH we cannot unite with our pious correspondent "X," in his devout prayer at the prospect of an harmonious session of the Legislative Council which opens to-day, we certainly trust that nothing will occur to ruffle the tempers of the members, and that moderation will characterize the proceedings of the august body throughout. Several very important measures will be brought forward during the session, and all the wisdom, moderation and good sense of the Council will be required in the discussion of their merits and their passage in a form that will conduce to the permanent prosperity of the interests they propose to guard. Among the measures that most require revision are those Ordinances which affect the productive and mercantile interests, which in the past two sessions have hardly met with that justice at the hands of the Council they certainly had reason to expect. We have touched upon various public questions during the past few weeks that it is proposed to introduce, and as they are laid before the Council we shall urge their defeat, amendment or passage as occasion may seem to require. Regretting as we sincerely do the illiberal constitution of the body, we are still not without hope that some good may be effected through the exertions of the popular members.

The telegraph brings us intelligence of an insurrection in Spain against the Provisional Government. The insurgents appear to be actuated by a desire to organize a Republic out of the chaotic elements left behind by the Royalists in their flight; and the adherents of Queen Isabella who remain within the limits of her late kingdom, indulging in the faint hope that in the general turmoil something may occur to assist them in winning back the people to her standard, have eagerly joined the rebels. The centre of the disaffection is at Cadiz, whither a strong force of Government troops have been sent to quell the rising if possible. The extent of the insurrection is of course as yet unknown; but in view of the popularity of the Provisional Government, and the near approach of the day on which the people are to decide by ballot the form of Government under which they desire to live, we think the rebel chance of success exceedingly small. These movements in Spain, however, cannot fail in exerting a powerful effect upon the French populace, who are becoming widely disaffected towards the Imperial policy, and who will regard the insurrection in Spain with any but feelings of equanimity.

The letter of Mr Joseph Howe, of Nova Scotia—an abstract of which we published this week—must have convinced the most obdurate repealer in Nova Scotia of the utter infutility of further agitation upon the proposal to dissolve the Union. Mr Howe's utterances are manly and loyal. He states unequivocally that he supported repeal until he saw that it was hopeless, and finding his colleagues of the Repeal Party were not disposed to make any sacrifice in support of their views, that then he withdrew from all connexion with them. The withdrawal of Mr Howe is a severe blow to the Repealers. They have able men left among them, it is true; but they have no man in their ranks who commands as large a share of public confidence, or who has effected as much in securing constitutional liberty for the Provinces as Mr Howe. The honorable gentleman in the same letter states that he is now in correspondence with the Ottawa Government with a view to obtaining important concessions for Nova Scotia; and pending an announcement of the result of those negotiations, Mr Howe's assailants, in Nova Scotia will add but little to their capital by abusing him.

A DEGENERATE SON.—A London correspondent writes:—You remember, of course, the Duke of Newcastle who visited the United States with the Prince of Wales, and subsequently died. Well, his successor has a younger brother, Lord Alfred Clinton, by name, who has just been whitewashed at the Court of Bankruptcy. When his father died, he received \$50,000 down, and came into an income of about \$5000 a-year. According to the developments in the Court, he has spent the \$50,000, has parted with his income till he has but \$2000 a-year left, and has run into debt to the amount of \$150,000 more; and all this within two years, for he is now only twenty-three. For the last five weeks he has been in prison. He narrated these facts as though he were telling a good joke, and one of the papers thus concludes its comments on the affair: 'How proud his family must be of this excellent young man!'

Municipal Council.

Council met on Tuesday, 15th Dec., 1868. Present—Councillors Allatt, Gibbs, McKay, Allsop, Gerow. In the absence of the Mayor, Councillor Allatt was voted to the Chair.

Minutes of last meeting read and approved. A communication from Mr Alston, Chairman of the Cemetery Committee, suggesting that the Corporation construct the proposed drain from the Cemetery to Coutts street, the Committee contributing \$50—read, and on motion of Councillor McKay, referred to the Street Committees for their report at the next meeting.

Communication from Mr M M Titus, applying for the balance of his account, \$550; read, and, on motion of Councillor Gibbs, referred to the Finance Committee to report thereon.

Communications from Messrs W O Ward and R Bishop, calling attention to the nuisance arising from the drain in Bastion st., read, and on motion of Councillor McKay, ordered to be received, and the Street and Sanitary Committee instructed to investigate the matter without delay.

An account from E Phelps for \$6 for cleaning View street culvert; also an account from Willis Bond for hauling gravel to Johnson and Broad streets, read, and on motion of Councillor McKay referred to Finance Committee for payment.

On motion of Councillor Gibbs the tenders for grading and graveling portions of Fisgard and Blaeburn streets, were referred to the Street Committee for action thereon.

The Chairman of the Finance Committee submitted a certified statement from A F Main, the Auditor of the Corporation accounts for the past Municipal year—first giving the total cash receipts and disbursements for the period mentioned—second, an approximate statement of the assets and liabilities. The total receipts being \$6160.81; the disbursements \$5960.62; the total assets for the same period being \$3748.84; the liabilities \$1468.04—read, and on motion of Councillor McKay, the report was ordered to be adopted and filed.

The Council then adjourned until next Thursday evening at 7 p.m.

AWFUL.—The reports that reach us from San Francisco of the ravages of the small-pox are truly appalling. Instead of decreasing, the disease is spreading. The San Francisco Times fixes the number of cases in one week at 140! The deaths comprise about one-fourth of the cases. The disease appears in its most malignant form. In some instances persons vaccinated with pure lymph have contracted the disease and died. Instances are related wherein whole families have been carried off by small-pox and their effects sent to auction and purchased by parties unaware of the danger to which they were exposed, and who have contracted the disease and died. So great has the alarm become at San Francisco that we observe by our special dispatch yesterday the fire department have been called out and are engaged in washing the streets and infected houses with a powerful disinfectant. How thankful we should be as a community that the horrid disease touched us so lightly and that we are finally rid of it.

A BEAUTIFUL COMPLIMENT.—General Ben Butler, of Boston, lately paid the Queen of England the following just and beautiful tribute of praise for her queenly and womanly virtues:—“I have a complaint to prefer against your Queen, and one of which I think you will not be disposed to dispute the validity. No Sovereign on earth has done so much to lessen the reputation of Republican institutions as she. The beauty of her queenly, as of her private life; the integrity and justice which through her whole reign have been her distinguished characteristics as a Sovereign; and her manifest desire on all occasions of international intercourse, or of national misunderstandings, to be governed by the laws of reason, honor and justice, have been such as even to force upon our republican minds a conviction that kingly government may be endurable.”

WHO IS TO PAY THE PIPER?—We were asked on all sides yesterday who is to meet the expense of the members crossing over the ferry to the Council Chambers? It is really a serious question. At least half a dollar a week per member must be provided, and the honorable gentlemen all complain of the lowness of their personal exchequers. Several speak of resigning unless some adequate provision is made, having a prospective view of damages done to their dress coats and black pants. It occurs to us that perhaps the best way to meet the contingency would be to hire a ‘bus’ to run to and from the Council at all hours during the sessions, at the expense of the Lands and Works Office.

THE STEAMER SIR J DOUGLAS.—No definite information has been received by the Government respecting the cause of the detention of this steamer. The schooner Black Diamond reports her having left Nanaimo for Comox last week, since which nothing has been heard of her. It is anticipated same accident has occurred to her machinery, which has compelled her to lay up in one of the bays. A vessel, probably the gunboat Forward, will be despatched to-day in search of her.

MASONIC BALL.—We understand Vancouver Lodge No 421, will celebrate St John’s Day by a ball on Monday, the 28th inst.

Boys' COLLEGIATE SCHOOL.—On Friday evening the pupils of the Collegiate school will commence their vacation. In order to render the ‘break-up’ as pleasant to the young folk as possible, Mr Jeans has kindly consented to give an exhibition with his splendid Oxyhydrogen Lantern. The entertainment will commence at 7 o'clock in the evening of that day, and the friends and families of the pupils are cordially invited.

It is said that Brigham Young contemplates retiring from Salt Lake to private life with \$3,000,000, acquired as a prophet. What will he do with his three score children and his fifty wives? He can part with his money much easier than he can get rid of his encumbrances.

The Legislative Council will be opened by His Excellency the Governor, for the dispatch of business at 2 o'clock to-day. The old Island Assembly chamber has been placed in order for the reception of the Council.

No intelligence having reached here to the contrary, it is reasonable to suppose that the Continental sailed from San Francisco for Victoria yesterday. She will be due here on Sunday.

We learn that Mr Thomas Westgarth, Inspector of Boilers, has been appointed Inspector of Weights and Measures, vice J M Sparrow, resigned.

At least three of the Mainland members of the Council are detained at the late Capital and cannot possibly reach here until to-morrow.

We hear that plans have been got out for the erection of two brick stores, on the corner of Fort and Government streets, the work to be commenced early in the spring.

We learn that Rear Admiral Hastings and staff will attend the opening of the Council to-day. We presume a guard of honor will be detailed for service upon the occasion.

THE CITY OF CHICAGO has contributed the magnificent sum of \$25,000 for the relief of the Red River sufferers.

PORTLAND, Oregon, is to have a bridge thrown, the Willamette to connect with the Puget Sound and East Side Railways.

THE ENTERPRISE will start for New Westminster at 8 this morning.

THE TELEGRAPH WIRES went down last night beyond San Juan Island.

THE ACTIVE is looked for here to-morrow from Portland.

APRIL IN DECEMBER.—The state of the weather yesterday.

THE GUNBOAT FORWARD, Lieut Commanding Larcom, went to San Juan yesterday.

ANTI-DIVORCE is the name of the newest style, Gente's Neck Tie; these together with a large Stock of Winter Clothing, Beaver Suits, Pants, Hats, Caps, Shaker and Oregon Underclothing, Boys' Suits, Shirts, Socks, &c., have just been opened out at ADAMS & BEAVEN'S New Clothing Store, Government street, which they are selling cheap.

FREE TRADE as Against Protection.

EDITOR BRITISH COLONIST.—You say in your article of the 14th that we want a system here to protect the farmer, the miller, and the manufacturer; and a letter in your columns of the 15th says that by all means let the farmer, the tanner and lumberman be protected. Now, here at once I join issue with you and your correspondent, and say that such a system cannot be maintained without inflicting great injustice on the people at large. As far as the farmer is concerned, I would remind your correspondent that by far the greater part of the persons now occupied in farming on the Island took up their lands before the union of the Colonies, and when there was no prospect of what is termed protection. The farmer is in the position of any other tradesman, and can scarcely expect legislation should compel the public to pay a higher price for the articles he deals in, in order that his business may pay a larger profit. As far as the lumberman is concerned, the present protection afforded him is, I think, a very doubtful benefit; when it is considered how large an element labor is in the cost of lumber, and how largely labor is taxed under the present system. Under the same system of indirect taxation, the other most important product of our Island, namely, coal, is heavily taxed; I might almost say that the whole amount of indirect taxes paid by Nanaimo may be looked upon as a tax upon this most important industry. I also think that your correspondent is in error when he says that all the younger communities of British origin on this Continent have followed the example of the United States in their protective policy; he may be right so far as manufacturers are concerned, but it seems to be a principle of the Canadian tariff to admit all raw products, agricultural and other, either quite free of duty or at very low rates. Your correspondent admits that the farmer must depend on the home market, therefore I say that the policy which will most promote the prosperity of the towns of Vancouver Island is the best for him.

IN YOUR OWN REMARKS of the 14th you say you cannot see how a system of Free Trade for the Island portion of the Colony, can be brought into practice; that two distinct systems for raising a revenue in the same Colony would never do. Why not? When we were two Colonies under one Governor we had Free Trade on the Island, with indirect taxation on the Mainland. Even after the Colonies were united, for some little time goods entered free at Victoria, and duties were not collected here until the Union was officially proclaimed in Victoria. The same

Free Port system might have continued to the present time to the great advantage of the Colony. It is not too late to restore it. It seems to me the only reform now possible. Any other reduction in the tariff must reduce the revenue. Make Vancouver Island a Free Port and a revenue equal to the loss of Customs' duties could be easily raised by direct taxation. In this way the revenue would not be reduced, and yet the tax-payer would be relieved from a heavy burden. Under the present system of indirect taxation each man's expenditure is taxed at least 20 per cent, so that the man who spends \$600 per annum is taxed to the amount of \$100; the man who spends \$1000 pays \$200; the man who spends \$2000 is taxed to the amount of \$400, and so on. Now, anyone who will make for himself a rough estimate of the expenditure of the population of Victoria, will see at a glance that the amount taken from the taxpayer, is more than double the amount received by the revenue from Victoria in customs' duties. To illustrate this I will take the one article of butter. Foreign butter is now kept out of our market by a duty of 10 cents per lb. You will see that the price of all butter is increased to the consumer by at least the 10 cents per lb, and yet of that amount the revenue receives scarcely anything, and this applies more or less to every thing consumed by the population of Victoria.

With Free Trade we may expect a large increase of business, and a revival of general prosperity, but should this expectation appear groundless, the relief afforded to the tax-payer by returning to a system of direct taxation would be a sufficient plea for the restoration of our Free Port.

FREE TRADE.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Europe.

MADRID, Dec 10.—News from Cadiz to a late hour says: The insurgents of that city still occupy Hotel de Ville and surrounding houses, and have erected barricades. The Government troops occupied the Custom House buildings in the neighborhood. All foreign Consuls have taken refuge in the Custom House, and the Civil Government of Cadiz has fled to San Fernando. The insurgents forced into the ranks all able-bodied men and prison convicts. The former Royal Guards have joined the insurgents. Telegrams from San Fernando say the movement is carried on under the name and with elements of Republicanism. Insurgents seem to be well supplied with money. The Civil Government of Saragossa telegraphs that the Republicans there attacked and intend to release and arm the convicts, but precautions have been taken to prevent it being carried out.

MADRID, Dec 10.—An armistice of two days has been agreed to with the insurgents of Cadiz for the burial of the dead, and to allow the women and children to leave the city, at the conclusion of which a combined attack will be made by the troops and fleet on that portion occupied by the rebels. The latter have freed and armed seven hundred convicts from the prisons and galleys. It is estimated that the rebels in Cadiz number 3000. Arms and munitions of war have been landed at Cadiz. It is said the parties in revolt are well supplied and have plenty of money, and are determined to fight to the last. American flags are respected; both parties will seek protection from the American Consul at Cadiz; as no American war vessel is in port, Danish and Italian vessels are placed at the disposal of the American Consul.

MADRID, Dec 12.—It is asserted the insurgents in Cuba have lately sustained heavy losses. Gen Dulce goes to Havana fully authorized to define duties and govern the island on a liberal basis; also, to issue a general amnesty to the insurgents on laying down their arms. The Government decided to postpone the attack on Cadiz, hoping the insurgents will accept the terms offered and surrender. The city has been declared under blockade. A Carlist party in Arragon are making preparations for revolt. Fears are entertained of a rising of the Republicans party in Barcelona.

NEW YORK, Dec 12.—The Herald's London special says no news has yet been received of the bombardment of Cadiz, as telegraphic communication is interrupted to Madrid. A dispatch from Madrid dated Thursday, says that a large number of workmen employed by the municipality on the public works armed themselves with carbines and bayonets fastened to sticks and assumed a threatening aspect which they still maintain. The National military, ordered to proceed against them, were preparing to march to the attack. Great efforts are being made to raise a revolt there, and the citizens were alarmed. Placards are posted on the Estromadura threatening the assassination of all rich citizens who take part in the election for the Cortes.

EASTERN STATES.

MEMPHIS, Dec 9.—The Little Rock special reports serious and horrid outrages were perpetrated near Lewisburg, Conway Co. It is stated that the colored militia have been shooting persons and committing other outrages, and it is thought a conflict will occur between the citizens and the Sheriff's posse of colored militia. A petition has been sent to Governor Clayton to disband the militia. Great excitement prevails.

NEW YORK, Dec 13.—The steamship Henry Chauncey, from Aspinwall, has arrived. The state of Panama is tranquil. A general amnesty is extended to all except the leaders of the last revolution.

WE SHOULD NOT SUFFER from a cough, which a few doses of AYERS' CHERRY PECTORAL will cure. Time, comfort, health, are all saved by it.

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon. *
